Proceedings of the Dewan of Mysore

Read:-

Letter dated the 15th September 1881 from Messrs Standish Lee and Mc Narama to ... Chidelaire

No 525/13 Dated Bangalore 22nd April 1882

Her Highness the Maha Rajah's Government fully recognises the great usefulness of a Paper Manufactory at Bangalore, and will be prepared to extend any reasonable support to such new and useful industry. The Government however sees serious objection to the guarantee of interest even for a limited period on the capital of an undertaking in which neither itself nor the public are directly interested, but which intended to benefit immediately the shareholders only. At the same time the Government countenance will, doubtless be of great help to start the industry which requires Capital. After full consideration the Government has come to the conclusion that the object will be best attained by the Government subscribing for a number of shares

will secure to the Shareholders the a=vantage of a Government Officer serving on the Direction in the early stag of the undertaking - When the Industr is thoroughly established on a sound basis, the Government might then con=sider the espediency of retiring from it by disposing of the shares held it.

2. The Government will also under=take to purchase all the articles of Stationery required by it by the Company for a certain number of years; but this will be subject to the condition that the articles supplied by the Company ar of good quality and are not charged price in excess of those for which they could be obtained in the Market

The other Concessions asked for are of minor importance. No taxes at=present levied on articles of Stationery and there is no difficulty in guarantee=ing exemption from such tax for a period of 15 years.

Free grant of the freehold of Site for the Mill and of lands for the growth of raw material required for the manufacture will be considered when
